

Senior Industrial Designer

Discipline: Industrial Design
Position: Full Time Employee
Location: Sydney, Australia
Availability: Immediately

About Maynard

Maynard is looking for a talented and self-motivated Senior Industrial Designer to join our Sydney studio. This is an excellent opportunity to lead, nurture and shape a growing team of creatives whilst delivering high profile projects throughout Australia and internationally.

Our projects are diverse and cover a variety of sectors, with a particular focus on transport and the urban realm. Our clients are visionaries and leaders in their fields; the Senior Industrial Designer must have the knowledge and confidence to work closely with clients and stakeholders to deliver exceptional creative responses to demanding design briefs.

An appreciation of craft and a proven ability to work collaboratively within a busy team is essential. Experience working for creative agencies specialising in wayfinding, graphic communication and product/industrial design is advantageous. The ideal candidate will have a genuine interest in cities and a passion for developing enduring products and solutions that improve peoples lives.

As an integral team member, we are looking for someone excited about shaping the company's future and ambitious about growth. This includes regular collaboration with our international colleagues in London, Melbourne and Auckland.

Our salary/package is competitive and dependent on the candidate's experience.

About You

- Experienced in delivering Kit of Parts Industrial Design for large metro and infrastructure projects. If possible, applicants will have experience on large metro projects such as Melbourne Metro, Crossriver Rail, Sydney Metro or similar international experience.
- This position could also be open to Architectural Designers, Façade Designers or appropriately skilled Interior Designers.
- A strong design eye, creating and driving user-centred design concepts with a focus on the touchpoints and built kit of parts for the public and transport environments.
- Proven track record in teams of designers and architects on projects with a construction value in excess of \$100m.
- Experience in delivering complex mock-up and prototyping programs for large metro projects.
- Detailed understanding of technical requirements of large infrastructure projects

- User experience focused design approach which places people first.
- Collaborative working approach with leading architectural, engineering and contractor firms.
- Excellent ability to present complex ideas to a diverse audience, including clients, general public, engineers and architects.
- Strong hand drawing skills. You utilise sketching as a tool to develop ideas and describe them effectively to clients and the team around you.
- Must have a valid Australian working visa

Skills and Experience

- Bachelors and/or Master's degree in a Design-related subject
- Relevant experience in established agencies (5+ years minimum)
- Ability to lead, motivate and mentor a team
- Fluent in SolidWorks, Rhino, Revit BIM 360 and various rendering programs (3DS Max, VRAY, KeyShot)
- Detailed knowledge of manufacturing processes
- Detailed understanding of BCA and relevant rail standards
- Detailed understanding of Architectural Principles, Lighting Design, Acoustics, MEP Integration, Transport specific systems
- Detailed understanding of User Experience Design principles
- Proactive, collaborative and works well under pressure
- Excellent design, visual communication and conceptual thinking skills
- Great written, spoken and interpersonal communication skills
- Confidence at presenting your work and ability to manage your project timings
- Ability to work across multiple projects
- Conscientious, organised, thorough and a natural problem solver
- Proactive, collaborative and works well under pressure
- Fluent in English verbal and written, other languages an advantage

What we offer

- Generous package based on skills and level of experience
- Overseas travel to London and Auckland offices
- Long term career opportunity
- A supportive team of skilled professionals
- Dynamic and forward-thinking environment

To Apply

Please apply with your CV and portfolio to jobs@maynard-design.com, with "Sydney: Senior Industrial Designer" as the subject.

Due to the volume of applications we receive, we cannot respond to each applicant individually. However, if we'd like you to come in for an interview, we will be in touch in due course.
