

Architectural Designer

Availability: Immediately
Position: Full Time Employee
Location: Sydney

The Position

We are looking for a creative and self-motivated Architectural Designer to join our team in Sydney. You are a visual-thinking problem solver and communicator, capable of achieving high-quality, bespoke, creative outcomes for clients and conveying our brand purpose and values.

This is an excellent opportunity to be a part of a small team where you will be heavily involved in various projects across the built environment. The principal responsibilities of this position will involve the creative development of architectural products, systems and solutions across our large-scale infrastructure work.

You will collaborate with our Architectural, Engineering & Contractor design partners to deliver world-class designs which create a stunning customer experience while delivering grounded, buildable and compliant solutions.

Responsibilities

- Supporting the Industrial Design team on large infrastructure projects.
- Development of customer-focused architectural components, such as fixtures and fittings, lighting, walls, ceilings and PSD's, etc.
- Development of architectural component concepts, and integrating these systems into large design schemes with our design partners.
- Be comfortable in infrastructure delivery, collaborating with our engineering design partners to mitigate risk and achieve high-quality, cost-effective design solutions.
- Be confident in discussing design solutions with our contractor construction partners to enable the design vision and concept to be delivered using the latest DfMA approaches to meet cost and program constraints.
- Ensure regulatory and standards compliance within the Building Code of Australia, Australian Standards. Additional knowledge of TfNSW, Sydney Metro and other large-scale operator frameworks is preferred.
- Assist the Project Managers and Wayfinding leads when required, and with the creation of diagrams, design guidelines and reports.

Software Competency

- Highly proficient in Adobe Creative Suite (InDesign, Illustrator with CAD tools, Photoshop)
- Highly proficient in 3D software; REVIT/BIM, Rhino, Grasshopper, Solidworks, VRAY, Keyshot.

Skills and Experience

- Degree in design related field such as Industrial Design, Facade Design, Architecture or Interior Design, and relevant experience (4+ years) in an established creative agency.
- Experience working on transport and urban wayfinding projects alongside architects, engineers and contractors.
- Excellent design, conceptual and critical thinking skills, with ability to communicate design work clearly and confidently in written, oral and presentation formats.
- Fluent in English with great written, spoken and interpersonal communication skills.
- Organised, thorough and an acute attention to detail, proactive, collaborative and works well under pressure.
- Ability to work across multiple projects whilst managing own workload, prioritising tasks and internal deadlines.
- Experience developing and delivering models, mockups & prototypes from small to full scale. Using VR, AR, and Physical builds.
- Experience in developing, coordinating and collaborating to achieve our design deliverables in a coordinated REVIT/BIM environment.
- Confidence visually and verbally presenting design solutions, with high-quality effective sketching, rendering and drafting skills.

About Maynard

Maynard is a multi-disciplinary design practice with offices in Sydney, Melbourne, Tāmaki Makaurau Auckland, and London. Together our team provides a unique combination of design expertise spanning the disciplines of wayfinding, graphic and information design, and product design. We are focused on designing for people, the places they inhabit and the products and interactions that will improve their daily lives. We call it social design.

We enjoy working with other disciplines and have long term relationships with high-profile architects and engineers, as well as specialist manufacturers. Communication and teamwork is key to making things happen, and that is at the core of how we work.

To Apply

Please share your CV and a link to your portfolio/website to jobs@maynard-design.com with the subject heading 'Architectural Designer: Sydney' with a short blurb about why we'd be a great fit!
